

I am vehemently opposed to HB 4026. I find it hard to believe that local stations would want to oppose fair competition. I feel completely isolated by the programming I am forced to endure. too many local stations are owned by the same corporation and ONLY offer the SAME type of program on multiple stations. This is the reason I exercised my rights to BUY Satellite radio. I still listen to the local stations programs that I found interesting before. the difference is I can enjoy other programs Not offered by local stations. My point is the local stations are not losing me, I did not listen to their station at the time I listen to satellite radio now!!!!!!!!!!!!!!
